

## My Family

F3 CoCo 詹雅嵐

First, I want to introduce my father who is always gentle. He checks my homework after school every day. When my sister and I go to bed, he tells us stories. My father teaches me Math, Social Studies, swimming and so on. He is the best teacher in my mind.

Second, I want to introduce my mother who is very kind to us. She often cooks a big dinner for us. She helps me with my English and Chinese.

Last, I want to introduce my sister. She is in sixth grade and we both study at Sacred Heart elementary school. Compared to me, she is shy. I often play with her. She seems as tender as a lamb. I am glad to live in this family. I love my family so much.

Thank you.  
You are the best family in the world.  
I love you.

## A boy named Jason

F3 Jason 寇智翔

One day, there was a boy called Jason. He liked to play a lot. One day he went to the playground as usual and played with his friends. On the way back home he kicked a rock, and he hurt his knee. When he got back home, he was crying. His mom asked him what's wrong, and he told his mom, that he had hurt his knee. Jason was very sad because he thought he wouldn't be able to play with his friends again. But his mom looked at his knee and said "Don't worry; you will be able to play with your friends again."

Jason listened to his mom, and felt better. Indeed after a few days, his knee got better and he was able to play with his friends again. Jason was very happy.

## I Love the English Class

F5 Kiki 戴琦昀

Do you know the best place in the school? A lot of children can learn English, and they can have a lot of fun there. It's the Kid's Happy Land.

Last Friday, teacher Elsa took us to the Kid's Happy Land. Everyone felt very happy. Teacher Elsa helped us to review the grammar of preposition, and she

showed us lots of pictures such as a rabbit is in the box, and two cats are opposite. It was so funny. The second part was the reading of the Rainbow Crow. Teacher Elsa showed us pictures of a coyote and a raccoon. They were so cute. After that, we saw two movies of the Lenape people's culture and hunting. The Lenape people put animal's skin on their bodies, and they went hunting. Their food included corns, squashes and beans. The last part was the animal dancing, and we were dancing like animals.

My favorite part of the class was the reading of the Rainbow Crow because it was funny. I can learn the tradition of the Lenape people. When we were carefully listening to the movies, teacher Elsa always asked us some important questions such as what did they do? Therefore, I like the Rainbow Crow part the most.

I hope we can go to the Kid's Happy Land again because I can learn a lot of things. We can have fun there, so I want to say "thank you" to teacher Elsa.

## A good Experience in Kid's Happy Land

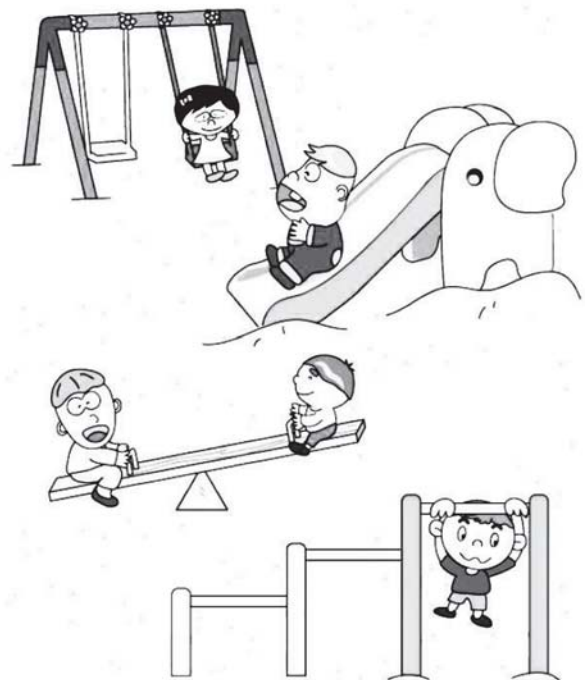

F5 Nina 謝欣霓

Where is the best place in our school? Someone thinks that is the playground, and other people think it is the hill. I like Kid's Happy Land the best. I love that place very much.

We went there twice. Today teacher Elsa first showed us the grammar preposition pictures. A rabbit is on, down, and behind a box. A girl is above a bed and etc... That helped us to review grammar. Next she showed us two movies. First movie was about the Lenape people. Second was their hunting. They put on animal's skin, and they used many long or short arrows to hunt. They were very smart. Last, she showed us the animals dancing movie. That movie was very interesting. All of the animals and people in the movie were dancing together.

My favorite part is the animals dancing. All of the animals were very cute and special. I want to see them more, so I hope I can see dancing animals in Taiwan. I think they dance very well. I shake and jump, but they dance better than me. When we saw that part on Friday, we all laughed very loud because they are so funny. I like this part the best.

In this lesson, teacher Elsa wants us to have a happy English class, not only writing all the time. I like it so much. We will improve our English, so that teacher Elsa will take us to Kid's Happy Land next time. And we will do things faster, so that we will have more time to play games. I like games and I like Kid's Happy Land class very much.

## My Summer Vacation

F8 Luck 蕭瀚威

I visited two wonderful places in summer vacation. First, I went to America for visiting my mother's best friend who is also my godmother. I stayed in the States for four weeks. I joined a summer camp there. It's a very nice experience. I made a lot of friends.

And I still keep in touch with them by e-mail after I came back to Taiwan.

Then I went to Japan. Although I had been to Japan for several times, I still love to go visiting in Japan. There are so many new things which attract me a lot. And I spent two days playing all over Disney Land and Disney Sea. That really impressed me. I ate lots of delicious food so I must reduce my weight now. Hope I can visit Japan or the other countries in the coming future.

## My Teacher

F8 Sammy 邱子筠

I have a wonderful teacher, her name is Vicky. We've met each other for three years. I learned a lot of things from her. Teacher Vicky teaches me Mandarin, Math, Social Studies and many things about our life. When we have some questions about these subjects, she always spends her time to teach us. In addition, she also shares many life experiences with us.

Teacher Vicky is not only a good but also a passionate teacher. She teaches us with all her heart. We are so lucky to have such a fantastic teacher.

## My classmates

F9 Joyce 張家瑜

My classmates are very friendly and funny. They are the best classmates in the world. Now let me introduce them to you.

First, I am going to introduce a funny boy. His name is Denny. He always makes us laugh and brings happiness to us. He is a smart boy. In morning class he is good at Math. Next, I would like to introduce Peter to you. He is the kindest person in our class and he is very tall. I am a lot shorter than him. Then, I want to introduce Annie to you. She is very kind and smart. She is taller than me too. Her words are big and beautiful. I like to look at her work. All of them are my friends. I like them very much.

I love my classmates and I think that they are the best classmates in the world.

## My friend

F9 James 謝秉均

In my school I have met a lot of friends. My friends are Sam, Andy and Danny. They play with me all the time. We have been classmates since we met in grade one. We were in different English classes. Sometimes at break time they will help me with questions about Math and I will help them too. We are all good at P.E. We always go to the playground and we will play dodge ball or basketball together.

Sometimes we will make a lot of funny jokes together. We will also study together and discuss some difficult questions with each other so that we can find the way to solve the questions. We always battle to be in the top four in class.

I feel very happy about having a lot of good friends. After this year, we are going to junior high school. I hope we can all be together again in junior high school.

## My English class in school

F10 Dianna 陳怡君

I'm now a six grader in school. Certainly, my English teacher changed. My teacher now is "Teacher Andre". He's not really tall and not really slim, but he's a "Really" talented artist. In school, his paintings are hanging everywhere!!! He's a really humorous teacher. He made English much more fun, made English to be the most expected subject in the whole day. In class, he will use some interesting things to make grammar or other subjects easier and happier. He's a really funny teacher, but he doesn't like noisy children, so if you are naughty in his class he will be angry and punish you really strict. The most important rule in his class is [Be Quiet!].

I really should praise the school teachers. They're really going through hardships. They must teach students during the day, at night they must check our work. Being a teacher is really a tiring job. So, if you are now a student, you must be a good student!
